# Warranty

This WARRANTY presented to:

Name: \_\_\_\_\_  
Address: \_\_\_\_\_  
For: Project: \_\_\_\_\_  
Address: \_\_\_\_\_  
Application Date: \_\_\_\_\_ Area Treated: \_\_\_\_\_ Sq ft

SINAK Corporation warrants that VC5 is of the highest quality as measured by exacting manufacturing standards, and that when applied by a SINAK Certified Applicator or under SINAK approved supervision will prevent flooring failure due to moisture and alkalinity emanating from the concrete for a minimum period of 15 years from the date of application. This warranty will remain in effect should the surface be damaged during the construction phase; or should mechanical preparation be done prior to the installation of flooring or coatings. Note: Glue down wood floors require an application of SINAK V-Poxy prior to installation.

### Conditions

**The concrete must have a water/cement ratio of 0.50 or less** and must have been mixed, placed and finished in accordance with guidelines by the American Concrete Institute (ACI Manual of Concrete Practice, 2008, Part 2, section 302, hereinafter referred to as Reference A). This warranty does not cover failures from causes other than moisture and alkalinity originating from the treated concrete. Only adhesives or coatings that are chemically broken down or dissolved by concentration of alkaline salts originating from the concrete will be covered under the terms and conditions of this warranty.

Conditions covered in Reference A, ACI Manual section 302.1R-15, Chapter 13 – Causes of Floor and Slab Surface Imperfections, are not covered under this warranty. Concrete containing chloride admixtures are not covered under this warranty. All other admixtures must be used in compliance with Reference A, ACI Manual section 302.1R-15, Chapter 8, part 8.8 – Admixtures. Concrete containing any of the following is not covered by this warranty: aggregate not in compliance with ASTM C-33; silicates or water repellants; and chemicals and contaminants introduced by the underlying soil. Topical intrusion of moisture or chemicals is not covered under this warranty. Improper installation, use or defects associated with preparation materials, adhesives, flooring goods or coatings are not covered under this warranty. Damage caused by movement of joints and cracks is not covered under this warranty.

### Remedy

In the event of failure of floor covering materials from moisture and alkalinity emanating from the concrete; and under the above conditions, SINAK Corporation will provide materials and labor to retreat and/or recoat the affected area(s); including replacement of floor covering in the affected area(s). Retreated/recoated area(s) shall be covered for the remainder of the warranty period. **This is our only warranty. We make no other warranty, express or implied, including merchantability or fitness for a particular purpose.**
